- (A) Specifications shown are subject to change without notice.
(B) Weight shown is estimate of model's weight displacement with average optional equipment aboard at time of delivery.
(C) Capacities of tanks are estimated to be total capacity of tanks. Useable capacities will vary depending upon conditions.

Important Information: Every effort has been made to ensure all information contained in this catalogue is accurate, however please note that some information may have been revised since the time of printing. All measurements quoted are approximate and pictures displayed are indicative only. Mustang Marine's commitment to continuous improvement may result in changes to prices, colours, specifications, equipment, and models at anytime without notice. We recommend that you consult your local Mustang Marine dealer for complete and up-to-date information - www.mustangmarine.com.au.

* Length of the hull (LOH) to ISO8666: Includes all structural and integral parts (i.e. the moulded length of the hull). It excludes parts that can be removed in a non-destructive manner without affecting the structural integrity of the craft, e.g. pulpits, outdrives, diving platforms, rubbing strakes.
